Traffic cone 1000 mm PE/REC - reflective

Sorfan

SKU: PA100PERECR1_70

Gross Price: $33.32

Net Price: $28.00

Technical Specification

Attribute	Value
Dimension	1000 mm
Color	Red/White
Material	Polyethylene (PE)
Weight	8,5 kg
Reflective	Yes
Shipping time	1-2 days

Description

Traffic cone 1000 mm PE/REC - reflective - rigid warning cone

Are you searching for a durable and highly visible way to secure temporary works on highways, split lanes, or outline deep excavations? The professional **Traffic cone 1000 mm PE/REC - reflective** with a height of **100 cm** is an essential warning safety tool of maximum visibility.

Made of high-quality **Polyethylene (PE) - rigid body and heavy recycled rubber base**, translating into remarkable mechanical strength and longevity. Combining a bright warning body with a stable base weighing 7,0 kg ensures the cone performs flawlessly under demanding conditions.

Technical specification

Dimensions (height x base)	100 cm x 48 x 48 cm
Material	Polyethylene (PE) - rigid body and heavy recycled rubber base
Color	Orange body with two reflective stripes of class R1, black heavy base
Product weight	7,0 kg

Application

- **Driver training:** Perfect for driving school practice grounds (categories C, D, and trucks).
- **Road & construction works:** Professional, highly visible marking of excavations, traffic pattern changes, and hazard zones.
- **Parking lots & warehouses:** Outlining transit lanes for delivery trucks and forklifts in large-scale facilities.

Key advantages

- **PE build (rigid body):** Guarantees perfect shape preservation and structural durability.
- **Massive 7.0 kg weight:** Extra heavy, wide recycled rubber base provides uncompromising wind stability against speeding truck drafts.
- **Class R1 reflectivity:** Bright warning color paired with two wide reflective bands ensures outstanding night visibility.
- **UV & frost proof:** Body won't fade in the sun or crack in freezing temperatures, allowing for year-round use.
