Description

Concrete Road Barrier Jersey type BPPS-2 Single-Sided, CE Certified - Road concrete class B20/25

Are you searching for a reliable, stable road barrier for long-term or temporary cordoning? The professional **concrete road barrier jersey type bpps-2 single-sided, ce certified** is a massive 2-meter road element that holds an official CE certification and is fully approved for highway and expressway construction projects.

The product is manufactured from value-priced B20/25 grade concrete, offering an affordable and fully functional solution. With a weight of **1200 kg**, it ensures supreme stability. The barrier is finished in natural grey concrete, blending cleanly into any road environment. Perfectly suited for roadworks, parking lots, and warehouses.

Production, RAL Painting and Logistics of Concrete Barriers in the EU

We are one of the largest manufacturers and distributors of concrete barriers in the EU. We supply our products to the Military (NATO forces, US and German bases), mass events (car racing, sports events), and various industries (construction sites, roadworks, warehouses, parking lots). Painted barriers significantly increase safety and visibility in work zones - we offer custom painting in any RAL color to match your requirements.

Upon request, we can organize transport for the barriers (shipping is extra paid). Unloading and placement are the customer's responsibility. It is also possible for us to organize unloading upon prior agreement – please contact us for details. We also offer flexible short-term and long-term rental plans. All transport, installation, rentals, and wholesale orders are priced individually to guarantee the best rates and attractive volume discounts. For custom specifications (painting), transport, and a tailored quote, please reach out to us via our contact page.

Technical specification

Dimensions	2000 mm x 550 mm x 810 mm
Concrete grade	Road concrete class B20/25
Finishing / Color	Natural grey concrete
Product weight	1200 kg

Application

- **Highway & road construction:** Outlining lane detours, narrowings, and closed-off zones.
- **Warehouse & parking protection:** Creating wheel stops and barrier guides for heavy vehicles.
- **Military & mass events:** Temporary road blocking, checkpoints, and public safety perimeters.

Key advantages

- **Tailored concrete grade:** Choose between robust C30/37 and affordable B20/25 for budget optimization.
- **CE-certified models:** Fully compliant with national public road construction requirements.
- **RAL color customization:** Paint customizable to any RAL color to match local safety regulations.
- **Full-service logistics:** Shipping upon request (extra paid) and flexible rental plans. Please contact us for details.
