Description

Barrier post 1200 mm, plastic base

Looking for a dependable way to isolate danger zones? The rugged **Barrier post 1200 mm, plastic base** weighing 4.5 kg marks lane separations and parking slots effectively.

Constructed from flexible, high-impact polymer (Polyethylene (HDPE)), the post absorbs collision forces by bending flat upon impact and returning upright, preventing car body scratches and extending product life.

Technical Specification

Dimensions	1200 mm
Weight	4.5 kg
Material	Polyethylene (HDPE)
Color / Pattern	White-red

Applications

- **Lane delineation:** Segmenting temporary traffic routes and construction lanes.
- **Site safety:** Warning of trench edges, heavy machinery zones, and storage areas.
- **Industrial pathways:** Separating pedestrian walkways from forklift lanes.

Key Advantages & Benefits

- **Superb Visibility:** Red and white retroreflective stripes ensure outstanding recognition.
- **Flexible & Impact-Safe:** High-grade HDPE body cushions impacts to protect vehicle paintwork.
- **High Stability:** Heavy-duty base weighing 4.5 kg provides a secure static stand.
- **Standard Top Connector:** Integrated eyelet allows quick hooking of plastic barrier chains.
