Description

Bariery kartingowe służą do zabezpieczenia trasy gokartowej i kontroli toru jazdy. Z racji kontrastowej kolorystyki w widoczny sposób wyznaczają drogę, nie odciągając przy tym uwagi kierowcy. Dostępne są w różnych kolorach (zależy od życzenia klienta) i 5 ciężkościach (9,12,15,18 i 21kg). Pojedyncza bariera ma długość 120cm a po połączeniu ze sobą 2 barier ich wspólna długość wynosi 200cm. Wysokość barier to 50cm a szerokie są na 40cm.

12 kg Karting Barrier - Professional Track Protection for Maximum Safety

Our **12 kg karting barrier in white** is a premium-quality safety device designed specifically for securing and shaping karting tracks. Built to withstand heavy use, it offers exceptional durability, stability and impact resistance. As a long-standing manufacturer and direct importer of road safety equipment, we provide proven solutions trusted by professional karting centres and event organisers across Europe.

Purpose and regulatory compliance

Karting barriers are essential safety elements used to protect karting tracks and support safe driving conditions. Their high-contrast colours clearly mark the racing line without distracting drivers. They comply with general safety guidelines for recreational and sports facilities, ensuring proper track separation, controlled driving zones and reduced impact risks.

Each barrier measures 120 cm in length, and when two barriers are connected, the total length becomes 200 cm. A height of 50 cm and width of 40 cm ensure excellent visibility and energy absorption. We offer multiple colour options as well as five weight variants: **9, 12, 15, 18 and 21 kg**, allowing precise adjustment to the characteristics of any track.

Additional suggested uses:

1. Creating safe zones during motorsport events.
2. Demarcation of training and manoeuvring areas.
3. Securing service and technical zones.
4. Industrial or sports-facility separation barriers.
5. Temporary event area management.

Thanks to the excellent price-to-quality ratio, immediate dispatch from our warehouse, and our strong reputation on the European market, this product is a top choice for professionals seeking reliable and versatile safety barriers.
