Color	White
Material	Polyethylene
Weight	0.5 kg

Description

Bariery kartingowe służą do zabezpieczenia trasy gokartowej i kontroli toru jazdy. Z racji kontrastowej kolorystyki w widoczny sposób wyznaczają drogę, nie odciągając przy tym uwagi kierowcy. Zakończenie bariery służy do rozpoczęcia lub skończenia ciągu barier przy utrzymaniu stałej wysokości zabezpieczenia. Są w kształcie walca i dostępne są w 2 kolorach - białym i czerwonym.

Karting Barrier End Piece (White) - Professional Safety Component for Kart Tracks

Our **white karting barrier end piece** is a premium-quality element designed to complete or begin a line of karting barriers while maintaining consistent height and protection. With a cylindrical shape and excellent durability, it seamlessly integrates with standard karting barriers, ensuring a safe, aesthetically pleasing finish. As a long-established manufacturer and direct importer of road safety equipment, we supply trusted products used by wholesale and retail customers across numerous European markets.

Detailed description and purpose

The barrier end piece plays a crucial role in building safe karting tracks. It provides a smooth terminal point for barrier sequences without compromising their stability or protective function. The high-contrast white color enhances visibility and complies with general guidelines for marking and separating areas in sports and recreational facilities, supporting optimal track layout and safety standards.

In the context of motorsport safety principles, the end piece contributes to clearly defined driving zones and improved traffic control. Combined with karting barriers, it forms a reliable and cohesive system that minimizes risk and enhances rider navigation.

Additional suggested uses:

1. Ending safety zones at motorsport events.
2. Marking access paths in manoeuvre and training areas.
3. Separating service and technical zones.
4. Industrial or sports hall area division.
5. Temporary demarcation during public events.

Thanks to excellent engineering, durability and an attractive price-to-quality ratio, this product stands out on the market. We dispatch most orders directly from our warehouse, ensuring **fast delivery**. With a large range of road safety products and many years of expertise, our company is recognised and appreciated throughout Europe.
