Description

Flexible post 750mm white with red tape

The exceptionally durable **Flexible post 750mm white with red tape** measuring 750 mm is a modern solution designed for lane channeling, parking space separation, and pedestrian zone protection.

The primary advantage of this post is its outstanding flexibility and crush-resistance. Made of flexible PP, it bends flat upon vehicle impact and immediately rebounds to its vertical position. This prevents car body damage and post destruction, drastically reducing maintenance costs.
