Dimension	1000 x 800 mm (Durchmesser)
Color	Yellow/Black
Material	Beton B20 / B25
Weight	1100 kg
Base dimension	fi 800mm
Shipping time	7-14 days

Description

Concrete cylinder 100/80 cm yellow and black- concrete barrier - Road concrete class B20/25

Do you need a heavy and highly visible barrier to block vehicle access or protect building corners? The heavy-duty **concrete cylinder 100/80 cm yellow and black- concrete barrier** is a massive blocking element designed to effectively stop any vehicle.

The high-contrast yellow and black colors ensure excellent visibility at NATO bases, port entries, and motorsport events. Weighing **1100 kg**, it cannot be moved without heavy lifting equipment, guaranteeing physical security.

Production, RAL Painting and Logistics of Concrete Barriers in the EU

We are one of the largest manufacturers and distributors of concrete barriers in the EU. We supply our products to the Military (NATO forces, US and German bases), mass events (car racing, sports events), and various industries (construction sites, roadworks, warehouses, parking lots). Painted barriers significantly increase safety and visibility in work zones - we offer custom painting in any RAL color to match your requirements.

Upon request, we can organize transport for the barriers (shipping is extra paid). Unloading and placement are the customer's responsibility. It is also possible for us to organize unloading upon prior agreement – please contact us for details. We also offer flexible short-term and long-term rental plans. All transport, installation, rentals, and wholesale orders are priced individually to guarantee the best rates and attractive volume discounts. For custom specifications (painting), transport, and a tailored quote, please reach out to us via our contact page.

Technical specification

Dimensions	1000 x 800 mm (Durchmesser)
Concrete grade	Road concrete class B20/25
Finishing / Color	Natural grey concrete
Product weight	1100 kg

Application

- **Port gates & shoreline boundaries:** Permanent or temporary cordoning of port docks and unloading bays.
- **NATO military bases:** Protecting entrance gates and security checkpoints from ramming attempts.
- **Motorsport & public events:** Outlining race track chicanes and blocking public streets.

Key advantages

- **High warning visibility:** Bold black and yellow stripes are visible from several hundred meters.
- **Ultimate physical stability:** Heavy 1500 kg weight withstands massive vehicle impacts.
- **Integrated steel eyelet:** Allows rapid hoisting and transport using appropriate lifting equipment.
- **Wholesale discounts:** Highly attractive bulk pricing and fast custom transport quotes.
