Production time of 100 pcs	8 days

Description

barriere 500 mm New Line - Stackable (RED) - Czerwony

Are you looking for a modern, easy-to-transport, yet highly stable road barrier for rapid space cordoning? The professional **barriere 500 mm New Line - Stackable (RED)** in red with a height of 50 cm is an innovative New Line traffic separator designed for ultimate mobility and comfort.

Featuring a unique, tapered shape (stackable and nestable design), empty New Line barriers fit cleanly inside one another. This allows you to ****save up to 70% of space**** during transport and warehousing, drastically lowering logistics costs. The barrier has a built-in top handgrip slot for effortless manual lifting and strong male/female interlocks. Once filled with water or sand, it becomes a heavy-duty physical barricade, perfect for public events, parking lots, and active construction sites.

Our company has specialized in providing top-tier road safety equipment for many years. As a highly regarded manufacturer and direct importer, we are present in numerous European markets. We hold a very large stock of professional road devices, and most goods are dispatched directly from our modern central warehouse, ensuring rapid and reliable delivery.

Full Logistics, Setup, and Barrier Rental Services

As a road safety leader, we offer comprehensive on-site support. We organize transport, crane-assisted unloading, precise positioning, and water ballast filling. Custom color manufacturing is available upon request for brand identity or specific events. For wholesale pricing and volume discounts, please contact us directly via phone or email.

We also offer highly flexible short-term and long-term rental plans. To check our rental terms and pricing, please visit the dedicated product page – check our [plastic barriers rental page](#) or get in touch via [our contact page](#).

Technical specification

Dimensions	Długość: 110 cm, Wysokość: 50 cm, Szerokość: 40 cm
Material	Wysokiej jakości tworzywo sztuczne (polietylen PE)
Finishing / Color	Czerwony
Product weight	około 6.5 kg

Application

- **Cordoning off event zones and mass public events:** Rapidly defining secure sectors for concert-goers, runners, or festival attendees.
- **Creating secure evacuation and escape corridors:** Physical and visual mapping of rescue routes and emergency exits.
- **Marking service, maintenance, and construction sites:** Safeguarding roadworks, trenches,

and technical intervention zones.

- **Securing logistics and warehousing zones:** Outlining vehicle lanes and safety walkways in distribution centers and parking lots.
- **Organizing and separating pedestrian traffic:** Effectively dividing walking paths from active traffic and industrial machinery.

Key advantages

- **Premium durability and quality:** Made from heavy-duty, UV-stabilized virgin polyethylene (PE) preventing cracks and fading.
- **Ballast water or sand filling:** Built-in top cap allows easy filling for ultimate wind and impact resistance.
- **Interlocking system:** Integrated male/female connectors enable quick building of solid, continuous protective lines.
- **High warning visibility:** Bright, bold colors ensure that drivers and pedestrians notice the barrier from a distance.
- **Excellent price-to-quality ratio:** Highly durable protective barrier delivering top-tier performance at a great value.
