Description

Professional LED lamp with dusk sensor

The STAR 6000 LED lamp is a high-quality device designed to improve road safety and prevent accidents. Equipped with 2 bright LED diodes and a dusk sensor, the lamp automatically turns on at night, ensuring visibility from a long distance, even in fog, rain, or low light conditions. Easy to install and operate, the automatic activation minimizes the risk of human error from forgetting to switch it on.

Technical specifications:

- Power: 6 V
- Weight: 0.5 kg
- Light source: 2 LED diodes
- Brightness class: 358 h / 2800 h
- Operating temperature: -15°C – +85°C
- Certification: yes
- Battery type: 1x4R25: 7 Ah/50 Ah
- Switch: yes

Applications and compliance

Certified and compliant with safety regulations, STAR 6000 is ideal for marking roads, construction sites, temporary detours, and hazardous zones. Perfect for municipal roads, parking lots, and industrial sites.

Additional uses:

1. Parking barrier marking
2. Temporary traffic route designation
3. Signaling during roadwork and construction
4. Warehouse and logistics area marking
5. Event and crowd area safety lighting

Why choose STAR 6000:

Our company has extensive experience in road and traffic safety equipment. As a manufacturer and direct importer, we provide high-quality products at competitive prices. Most items are shipped directly from our warehouse for fast delivery. STAR 6000 is durable, reliable, and easy to use, ensuring maximum road safety and customer satisfaction.
