Description

High-Quality Twilight Lamp Designed for Maximum Safety

The **STAR2000 red twilight lamp** is a premium road safety device designed to ensure maximum visibility in all conditions. Equipped with a **6 V power supply, LED light source,** and a **dusk sensor**, this lamp automatically activates at twilight, making it ideal for marking construction zones, traffic obstacles, and emergency sites. With a brightness class of **713h / 4500h** and a temperature tolerance from **-15°C to +85°C**, the STAR2000 guarantees reliable performance in all weather conditions. Certified for safety compliance, it meets legal requirements for road markings and temporary traffic management, ensuring your operations are both safe and compliant.

Versatile Applications for Various Industries

This twilight lamp is perfect for road construction, event organization, traffic control, and emergency situations. Its **lightweight 0.7 kg design** and robust construction make it easy to transport and set up. Additional ways to use the STAR2000 include:

1. Marking temporary pedestrian zones
2. Highlighting warehouse and industrial hazards
3. Signaling roadside obstacles at night
4. Guiding traffic during festivals and public events
5. Supporting maritime or airport ground operations

Premium Quality and Excellent Value

As a **manufacturer and direct importer of road safety equipment**, our company has been supplying high-quality devices across Europe for years. Our products are appreciated by both wholesale and retail customers. The STAR2000 lamp features **reliable 2x4R25 batteries (7Ah/50Ah)**, a built-in switch, and long-lasting durability. Most orders are shipped directly from our warehouse, ensuring **fast delivery**. With **high-quality materials**, exceptional reliability, and an **attractive price**, STAR2000 is the perfect choice for anyone seeking professional-grade traffic safety solutions.
