Description

Rubber parking stopper with yellow reflector

Want to organize vehicle traffic and prevent collisions in your corporate parking lot or underground garage? The rubber wheel stopper **Rubber parking stopper with yellow reflector** (10 cm high) is a reliable parking aid for front and rear parking.

Made of high-density SBR recycled rubber, this stopper gently halts the vehicle by blocking the tires without damaging front bumpers. Reflective polymer tapes ensure excellent visibility after dark and in dark environments.

Technical Specification

Dimensions	1200 x 150 x 100 mm
Weight	11 kg
Material	Recycled SBR rubber
Color	Black

Applications

- **Commercial and retail parking lots:** Clearly defining parking boundaries and protecting walkways and fences.
- **Underground and multi-story garages:** Protecting walls, utility pipes, and preventing head-to-head collisions.
- **Logistics centers & loading docks:** Safely blocking truck wheels to protect building structures (PARKSTOP model).

Key Advantages & Benefits

- **Heavy-duty construction:** Excellent compression and impact resistance under wheel loads of heavy vehicles.
- **High night visibility:** Bright integrated reflective bands (polymer reflector tape) visible in low light conditions.
- **Easy installation:** Pre-drilled anchoring holes for quick bolting to concrete or asphalt surfaces.
- **Eco-friendly recycled content:** Made of high-grade recycled SBR rubber, PVC, or durable HDPE.
